Peak Fishing

Walleye are Lake Erie's dominant predator species and most-sought gamefish. They can be caught from April thru October. Sizes range from 2-4 pounds from April thru August. September and October are the best times to catch trophy walleye ranging from 5-8 pounds. Hatches in the last few years have put great numbers of walleye in Lake Erie. Limit catches of 4 during April and 6 during the remainder of the season are not uncommon.

Yellow perch are considered the tastiest fish in Lake Erie. They tend to begin schooling up around late August and stay active through late October. Yellow perch fishing action can be fast and furious and a great time to get kids involved with fishing. Limit catches of 30, 7-10 inch yellow perch are not uncommon and they can taste pretty good in the middle of winter.

Smallmouth bass are great fighting fish found on many of Lake Erie's reefs. The jumping ability of these bronzbacks provide a great thrill for all. Action is best from July thru October. A limit of 5 exists and season is closed thru late June.
